

UAS Laboratories Receives Kosher Certification

2010/07/01 - UAS Laboratories, Inc.

All UAS Laboratories' DDS® Probiotics are now Kosher certified by OK

Kosher, one of the world's most respected Kosher certifications. DDS® Probiotics including DDS®-Plus, Probioplus DDS®, DDS® Acidophilus and DDS® Junior are now covered under OK Kosher certification and are available in 37 countries including USA, Canada and Europe.

OK Kosher certification will apply soon to all private label probiotics manufactured by UAS Labs and the probiotic raw materials, probiotic blends and probiotic bulk capsules, tablets and powder sold to customers around the world. The OK Kosher Certification is one of the most respected symbols of kosher approval in the world. OK certification currently applies to more than 300,000 products by more than 1500 companies including Kraft, ConAgra and Tropicana. It is used on 6 continents.

DDS® Probiotics—Focus on Quality

DDS® Probiotics are marketed and manufactured by UAS Laboratories at its plant in Wisconsin. The products are produced with rigorous quality standards that include testing every batch for quality and viability, both internally and by an independent laboratory, Silliker® laboratories. Results of testing are posted on the company's website and published in a monthly newsletter. DDS® Probiotics have over 40 years of university and clinical research and over 200 studies including recent clinical studies on IBS and atopic dermatitis. The products are non-dairy, gluten free, soy free, wheat free, corn free, preservative free, lactose free and non-GMO.

About UAS Laboratories and DDS® Probiotics

UAS Laboratories, Inc. located at 9953 Valley View Rd, Eden Prairie, Minnesota, USA 55344 (www.uaslabs.com), is the leading probiotic company established by Dr. S.K. Dash, the probiotic pioneer in 1979. UAS Labs provides DDS® Probiotic supplements to stores and health professionals, in the USA, Canada and around the world. UAS Labs also provides private label probiotics and probiotic raw material. DDS Probiotics are backed by over 40 years of University research, U.S. patent and trademark and are listed in the Physician's Desk Reference. Dr. Dash, President of UAS Laboratories, is International Probiotic Association's (IPA) Vice President and Scientific Advisor and is an adjunct professor of nutrition and food science at South Dakota State University. Dr. Dash has received many national and international awards and honors for his pioneering work in probiotics. Dr. Dash has authored several books and articles on probiotics including the recently presented comprehensive approach to *Selection Criteria for Probiotics* that provides a roadmap for evaluating probiotics.
